Percentage: 89.80%

SKILLS

C++, Python, Java
HTML, CSS, Javascript

LANGUAGES

Hindi, English

PROJECTS

Hotel Website

Bootstrap, JavaScript, HTML, CSS

- Developed web-based application for managing Hotel services.
- Room management services like room availability checking, video tour, and booking preferred rooms.
- User services like rating hotels, locating addresses and directions on Google Maps.
- Support services like chatbox, FAQ, and sending inquiries.

2048 Game

Python

Developed a [2048 game](#) as a python application.

2048 is a game where you combine tiles to gain a higher numbered tile. You will play by combining the tiles with the same number to have a tile with the sum of the number on the two tiles.

Catch Me If You Can

HTML, CSS, JavaScript

Developed a web-based game. A box is created whose size changes dynamically according to the viewport size. When you hover over the box, it changes its position randomly inside the viewport.

Counter Continued

HTML, CSS, JavaScript

Designed a web-based application to create a responsive counter. A number will need to be entered by the user (say n). Afterward, the counter will start and stop after the n minutes are completed.
